

Letter from Chairman of the Board of Directors
Mrs. Parween Kazerooni

Looking back this has been a very productive year for the Modern Knowledge Schools family. We have seen much accomplished from our students, staff and school. We have a new KG program, seen growth in all schools, had greater participation and success in the Crown Prince International Scholarship Program and received positive results from our accreditation visits with Middle States Association of Collages and Schools (MSA) and Quality Assurance Authority for Education and Training (QAA). Our faculty continues to challenge the students with high expectations and our students rise to meet those expectations.

Our community has continued to strive to be the best and committed to providing for the care, safety, and well-being of each student as well as meeting individual educational needs. Student learning actually charts the course for student success and follows our philosophy that every child not only wants to learn, but every child can learn.

Our dream is to create a learning community that is exciting, challenging and a place where our students not only learn, but are also excited to come each day. We dream that our classrooms are exciting and invigorating environments; places where children not only look forward to being, but also do not want to leave. We dream of our students being the master of their learning by creating an atmosphere that allows them to own their own learning.

My dream for this website is to install a sense of connection and reconnection with your MKS family and each other, the things that you love, the ideas that you hold dear and friendships you never want to lose. Cherish these ideas; be a dreamer and a doer!
